EXAMINER'S AMENDMENT AND REASONS FOR ALLOWANCE

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Shao Guo on April 18, 2006.

The application has been amended as follows:

IN THE CLAIMS:

Claim 14. (currently amended) The method of claim 13 wherein said purge stream is employed in an alkylation zone to form an alkylate of mixed isooctanes.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose or suggest a process as claimed in which the mixture from the combination zone is passed directly to a metathesis zone and then a mixture, which is separate from the propylene produced in the metathesis zone, is passed to a skeletal isomerization zone. The closest prior art to Commereuc (US 6,743,958 B2) discloses the separation of the mixture from the combination zone with a separated stream being skeletally isomerized. There is no

suggestion in Commereuc that a mixture as claimed can be recovered from the metathesis zone and then skeletally isomerized.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Walter D. Griffin whose telephone number is (571) 272-1447.
